The archetypal and symbolic relationship of the numerology hidden in the ancient wisdom of the Naad.

Discovering a new way to understand the psyche of the 11 numbers from the frequency of the sound of the Gurmukhi words that express their related essences, intentions and projections.

The proper pronunciation of the Naad gives the experience through the vibratory frequency penetrating straight into the psyche and in the physiology.

The explorations of the realms that the words can reveal when specifically investigated offers new angles for the comprehension of the infinite domain in every number.

The approach to lead the process of experiencing and use the quality and faculties of every facets of the Self that the archetype of numbers symbolize, is by finding and releasing what doesn't allow those assets to be usable.
